# TLS Turf Fan AC 50

**Portable, affordable and innovative air circulation Turf fan**

**The TLS Turf Fan generates all-important air movement, an essential component for a healthy turf on all sports venues.**

TLS Turf fans have raised the bar on surface aeration. The standard features of the fans include durable steel trailer, oscillating assemblies, electric power control and easy to use features.

This fan has been specially designed in-house for promoting the healthiest turf through improved air circulation, the alleviation of stress and reduction in turf diseases.

## Key features:

- Easy to use interface
- Adjustable aluminium blades.
- Vertical oscillation from  $-5^{\circ}$  to  $+40^{\circ}$
- Horizontal oscillation from  $0^{\circ}$  to  $180^{\circ}$
- Maximize air flow
- 5,5 kW 400V 3 phase Fan
- Connection 32A 5 pin
- Total Load 16.5 A
- Dimensions - L: 2.5 m, W: 1.68 m, H: 2 30 m
- Weight – 427 kgs
- CE Approved and Certified
- Tailored to customers requirements
- Electrical Box IP68 protected
- Air Flow 54,000 m<sup>3</sup>/hr
- Throwing Length of 50metres
